

California OES Weather Threat Briefing

Friday, February 7, 2020
9:00 AM PST

- Day 1 (Fri): Drier and warmer weather to continue across the state through Friday

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

02/07/20 - 02/13/20

Friday

- Drier and warmer weather to continue across the state through Friday

Saturday-Monday

- A weak storm system will move through the state from north to south late Saturday through Monday, bringing cooler temperatures to the state
 - Strong winds possible in the Bay Area mountains Saturday evening through late Sunday night. Northeast winds 15 to 30 mph with gusts up to 45-50 mph possible. Strong winds could blow down trees and power lines. Power outages are possible. Travel could be difficult, especially for high profile vehicles.
 - Some light showers are possible in far northern California and across the Sierra Saturday and Sunday
 - The chance of precipitation shifts into Southern Region Sunday into Monday
 - No significant debris flow impacts expected with this storm
 - Travel impacts due to light accumulating snow and gusty winds are possible in Southern and Inland Regions, primarily in the mountains

Tuesday-Thursday

- Dry and warmer weather across the state with no significant impacts
